

Requirement Analysis – StudentHub Portal

1. Project Title

StudentHub – Student Management Portal

2. Problem Statement

Students often need to access academic information such as attendance, assignments, results, notices, and timetables from different sources. Managing all this information separately can be confusing and time-consuming. StudentHub provides a centralized web portal where students can access all academic information from a single platform.

3. Objectives

- Provide a single platform for students.
- Manage academic records efficiently.
- Improve communication between students and faculty.
- Enable easy access to notices, assignments, and results.
- Maintain student profiles and attendance records.

4. User Roles

Student

- Register/Login
- View profile
- Check attendance
- View assignments
- View results
- View timetable
- Read notices
- Submit feedback

Admin

- Manage students
- Upload notices
- Manage attendance records

- Upload results
- Manage assignments
- Update timetable

5. Functional Requirements

Authentication Module

- Student Registration
- Student Login
- Logout

Profile Module

- View student details
- Update profile information

Attendance Module

- View attendance percentage
- View subject-wise attendance

Assignment Module

- View assignments
- Check submission deadlines

Result Module

- View semester results
- View subject-wise marks

Notice Module

- Display latest notices and announcements

Timetable Module

- View class timetable

Feedback Module

- Submit feedback or suggestions

Contact Module

- Contact administration

6. Non-Functional Requirements

- User-friendly interface
- Fast page loading
- Responsive design
- Easy navigation
- Secure login system
- Maintainable project structure

7. Minimum Pages

1. Home
2. Login
3. Registration
4. Dashboard
5. Profile
6. Attendance
7. Assignments
8. Results
9. Notices
10. Timetable
11. Feedback
12. Contact Us

8. Navigation Flow

Home

→ Login / Register

→ Dashboard

→ Profile

→ Attendance

- Assignments
- Results
- Notices
- Timetable
- Feedback
- Contact Us
- Logout

9. Expected Output

A web-based StudentHub portal that allows students to access academic information through a structured and easy-to-use interface.
